

BEYOND ALLIES

FOSTERING MALE ALLYSHIP

The Beyond Allies is a virtual program which takes a deep dive into the challenges that women face in the workplace. Designed for male allies and open to female allies, Beyond Allies focuses on the impact of Emotional Intelligence (EQ) at work. As a group, leaders will embark on a journey of empowerment, understanding, networking, and accountability.

With a powerful combination of thought exercises and data insights, leaders will learn results-driven strategies for becoming stronger allies. Attendees will develop the emotional and social skills they need to support the advancement of all women, and to consider both the day-to-day interactions and long-term commitments that can make such a difference in women's careers.

Participant Testimonials

Beyond Allies
2021 Cohort

“This program is helping me to take a look at the relationships I have with women in the workplace to determine if my actions are creating an environment for them to thrive. Do I speak up enough on their behalf when they are not in the room?” - **Director Diversity & Human Resource Strategy**

“The content and small group discussions were valuable in gaining insight into how I can effectively be an ally in my role. It also gave me great perspective on how my male colleagues could be thinking about allyship and how I can support them.” - **Human Resource Business Partner**
